# SENIOR 2002 WILLS

---

FRICH

---

Hey there, denizens of Niwot High School! For those of you who are a little optically slow, note that the wills are alphabetized by the Senior's first name. The recipients are in the order in which they were submitted. If you don't see something you left or something has changed from the way it was submitted, either it was too "scandalous" for print, thirteen years of education hasn't taught you to write your name on things (you twit), or both. Enjoy!

**Disclaimer or something equally legally satisfying:** Alllll righty. Many, many hours were spent compiling these wills. We tried very hard to print the wills exactly as we received them. There were a few situations where we chose to edit a will. As mentioned at the start, this had to do with the will being "scandalous". Basically, we were worried about printing libelous material. We apologize if we cut something out that wouldn't have been offensive. We also cut a few things which weren't offensive but simply could have gotten the recipients of the will in trouble. Some of you failed miserably at being adequately subtle. If something was printed that you find very offensive, we would like you to keep in mind that each of the wills were written by the authors of the individual wills, not by the FRICH staff. If you would like to consult someone about the offensive material, we suggest that you address the writer, but in a legal and appropriate manner. This was why we did not print any anonymous wills. In printing these wills, we have had no intent of printing anything that would be harmful to anyone.
